

Sustainable Building Performance Management

Cordjia Capital Projects Group provides sustainable building performance management services that focus on Automation Systems and Controls, Commissioning, Maintenance Solutions, Operational Health Check, Energy Performance Solutions, and Energy Procurement Solutions in buildings.

Our sustainable building performance management services support facility administrators and managers with a comprehensive assessment, recommendation, and implementation process that will enable energy savings, systems control and performance improvements. These capital investment strategies are oriented towards improving building performance while reducing green house gas emissions.

Our sustainable building performance management services are comprised of the following elements:

**Operational Health Check
for Integrated Mechanical,
Electrical, and Ancillary Systems**

Maintenance and Technical Solutions

Building Automation Systems and Controls

Building Commissioning

Building Energy Performance Solutions

Energy Procurement Solutions

we don't just deliver solutions | we lead them™
