

Community Development Block Grant (CDBG) Administration Solution

Our Community Development Block Grant (CDBG) Administration solution provides CDBG Certified professionals to assist municipalities and non-profit groups in completing all phases of Department of Housing and Urban Development (HUD) funded grant projects. We ensure that all State and Federal requirements involved with HUD grant projects are met. When Federal grant funds are used, our CDBG Certified professionals will work through the many Federal process requirements to ensure all the necessary documentation and protocols are delivered. We work directly with the municipalities and their designated representatives through the completion of the project.

Benefits of CDBG Administration

Benefits of Our Services

Our CDBG Administration solution provides municipalities with a single point of contact for the comprehensive management of their HUD funded grant projects. We serve only your interests and with a flexible suite of services we can provide full service or enhance the skills of your in-house team. Through this collaborative process our solution achieves maximum benefit to you in cost, quality and function. The Federal requirements for financial management and procurement, environmental review, administration and enforcement of Federal labor standards provisions, acquisition and relocation if necessary, and fair housing and non-discrimination practices in HUD programs as well as project design, construction, and quality assurance standards must be strictly adhered to in order to guarantee the Federal funds remain in the “participation” status.

we don't just deliver solutions | we lead them™
