

Building Energy Performance Solutions

Cordjia Capital Projects Group's energy performance solutions team can assist you with analyzing the most cost-effective options to reduce energy cost and developing a budget that considers your specific needs and provides you with one resource to enhance and maintain your facility's requirements. Our team can work with you in developing a sustainability and energy management plan for your facility, including a list of projects to be implemented over time that works with your budgetary constrictions.

Our goal is to not only identify strategic energy cost reduction opportunities for our clients, but also to assist in their implementation.

Energy Performance Analysis

- Provide technical feasibility, savings, costs, monitoring and verification plans, O&M, training plans, etc.

Strategic Energy Planning

- Develop strategic energy management plans for businesses and government agencies to address all aspects of energy use, tracking, purchasing, and savings

Energy Verification and Savings

- Review of energy consultant and vendor proposals to ensure accuracy of energy saving claims and conduct pre- and post- installation inspections
- Review energy provider cost and ensure lowest cost/Kwh available
- Conduct benchmarking, reporting, and implementation to meet eligibility criteria for certification and public recognition
- Provide evaluation and eligibility for state and federal energy program incentives

Energy Audits

Provide the following audits:

- Preliminary Audits - A cursory investigation aimed at helping to pre-qualify projects before proceeding to a more detailed evaluation
- Investment Grade Audits - A detailed engineering document confirming the scope and cost savings of potential projects

we don't just deliver solutions | we lead them™
